

To: Entertainment coordinator

Dear client

you most likely received mail from me before. About once per year I let organisers of my audiences know

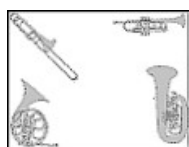

what's new.

Quite a lot actually.

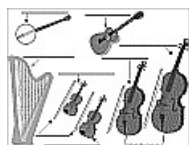

I always wanted to play saxophone – I like its sound. Now I can. **I added over 100 instrumental sounds to my accordion**, sax included. I am the conductor of my own

one-man-orchestra. Drums and latin rhythms enhance my music.

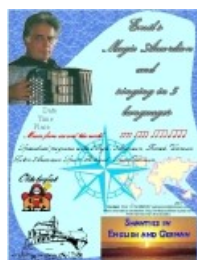

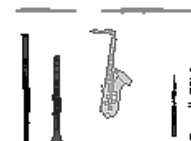

Wanting the best possible quality I went to the Austrian factory where these orchestral sounds were added to my accordion. I am very happy with the result and you will like it too. Those who already heard it are fascinated.

Of course the good old real and only accordion is still available. This is really great when Ontario Hydro power fails

If you have never listened to my singing you didn't miss world class. However, my participation in the Concordia Choir and Mexican soloist musicians certainly taught me a lot. I sing in **5 languages** while playing! My music comes from many parts of the world – a result of my traveling and working overseas. Of course the “local traditional stuff”, Anglo-American, German,

French, even the rare Canadian music is available for your audience. Music from Europe: The London – Vienna – Lisbon triangle. Latin American: From Mexico south.

I created a new poster. It tells you a little more about my program. The new poster, the old fliers and more are available from the website. If you print the required quantity right from the website you will get the best printing quality, whether colored or black/white. Why print more then one? I create most fliers as

posters. When you are planning your event all you do is fill in date, time and place into the respective fields of the poster. You certainly save time creating attractive posters in this way.

Well, now you are up-to-date about Emil's Accordion. The very newest information is as always on the website:

<http://emilsaccordion.tripod.com>

A copy of this letter is on the website too!

I remain with best regards and am looking forward to playing for you soon.

Emil Zahner (unsigned PDF document)

P.S. Please: Email me, sending you this kind of information by email to you saves me postage. Please check my website for current email address. If you are in a hurry use this: zahneremil@hotmail.com (not shown on website copy). Thanks. ... And if you need good used office equipment & more check <http://adsz.tripod.com>
